Dear Sir or Madam:

I would like to enter my comments on the ongoing Microsoft litigation.

I believe it is time to close the case and reach a negotiated settlement. The measures the court is now suggesting are in my opinion sufficient. I disagree with those states that are pressing for further measures. I also believe that the case has left the realm of benefiting the consumer and has acquired the appearance of a personal quest by government lawyers to bring down this corporate entity.

Please move forward with the existing settlement agreement.

Thank you.

Regards,
